*“I’m having problems with my landlord. I think I might get evicted from my apartment. A member said he called *LifeSolutions* and talked with a lawyer when he had a legal problem. Is this something that you do?”*

Yes. Our Personalized *WorkLife* Services provides 30 minutes of free general legal consultation on a variety of topics, such as landlord/tenant issues, adoption, bankruptcy, divorce/child custody, and estate planning/wills. Employment law and any legal issues involving health care or other types of organization-sponsored benefits are excluded from this service. Legal advice and counsel is available by phone or in-person. If further services beyond the free 30-minute consultation are required, you can receive a 25 percent discount on hourly in-network attorney fees. This discount does **not** apply to court fees.

Call 1.855.209.8762 to request a legal consultation or if you have questions about the services available. Talking with a legal expert in landlord/tenant issues will give you valuable information and help you manage your situation and minimize your stress.
